

## IN THE CLAIMS

**Claim 1 (amended).**

A toothbrush comprising:

a handle having a first top surface and [[a]] an opposing first bottom surface;

a head having a second top surface and a second bottom surface, the head connected to

the handle;

a plurality of bristles located on the second top surface of the head;

a reservoir having toothpaste therein located within the handle, the first reservoir

extending through the first top surface and the first bottom surface; [[and]]

a first cover covering the reservoir positioned on the first top surface in order to cover

the reservoir; and

a second cover positioned on the first bottom surface in order to cover the reservoir.

**Claim 2 (amended).**

The toothbrush as in claim 1 further comprising a tab attached to the first cover for facilitating removal of the first cover from a covering relationship with the reservoir.

**Claim 3 (original).**

The toothbrush as in claim 1 wherein at least a portion of the bristles are ramped downwardly toward the handle.

**Claims 4-7 (canceled).****Claim 8 (original).**

The toothbrush as in claim 1 further comprising a channel disposed on the first top surface of the handle and extending between the reservoir and the handle.

**Claim 9 (original).**

The toothbrush with reservoir as in claim 1 further comprising:  
an opening disposed within the second top surface of the head;  
a duct connecting the opening with the reservoir; and  
wherein placing pressure on the cover causes the toothpaste to pass through the duct and  
exit through the opening.

**Claim 10 (original).**

The toothbrush as in claim 9 wherein the duct is disposed along a longitudinal axis of the  
handle.

**Claims 11-13 (canceled).**

**Claim 14 (original).**

The toothbrush with reservoir as in claim 1 further comprising:  
a single opening disposed within the second top surface of the head;  
a duct connecting the opening with the reservoir; and  
wherein placing pressure on the cover causes the toothpaste to pass through the duct and  
exit through the opening.

**Claim 15 (original).**

The toothbrush as in claim 14 wherein the duct is disposed along a longitudinal axis of  
the handle.

**Claims 16-17 (canceled).**
